## **Objective:**

To obtain an entry-level IT position where I can use my technical skills, education and passion for solving interesting problems.

## **About me:**

Hi, my name Artem.

I just finished Main Academy, IT School. Before Main Academy I lived in USA, FL for two years. Worked there as web developer in furniture store. Firstly I developed Single page website using HTML, CSS, jQuery.

Next company decided to change website to e-commerce. And i created website on WordPress with WooCommerce plugin.

After that I had a part time job to develop online store. Theme was Jewelry. Website on (WordPress) WooCommerce.

Web developer wasn't my only job, also worked as translator and I spoke a lot with customers.

Now i'm looking for Junior Frontend job.
